

**Postdoctoral Fellowship in Computer Vision  
York University Centre for Vision Research  
Toronto, Canada**

A postdoctoral position is available in the **Human and Computer Vision Laboratory of James Elder** at York University, Toronto, Canada. The candidate should have a research background in computer vision or image processing.

The position will involve collaborative research on both fundamental and applied projects, with emphasis on applications to dynamic urban scene understanding. Specific topics of current interest include:

- Contour processing
- Perceptual organization / Segmentation
- Shape representation
- Natural scene statistics
- Attentive vision systems
- Camera calibration / rectification
- Single-view 3D reconstruction
- Face detection / recognition
- Person re-identification
- Crowd analytics
- Traffic analytics

The salary for this position is competitive and the starting date is flexible. The position is for one year, with the expectation of renewal. The application deadline is **Sept 15, 2017**. International applications are encouraged.

The [Elder Laboratory](#) is part of the [York Centre for Vision Research \(CVR\)](#), the [York Vision: Science to Applications \(VISTA\)](#) Program and the [NSERC CREATE Training Program in Data Analytics & Visualization \(NSERC CREATE DAV\)](#).
